Girls Overcome Technology Trepidations

What: Best Buy Geek Squad Summer Academy

A full week of hands-on technology activities offered to 75 middle school students of Laura Jeffrey Academy. Students will experiment with digital music, media and web design. Students will delve into the intricacies of computers with classes on networking and building a PC from scratch. Students will navigate global communication methods while learning cyber safety. The event culminates on Friday with students inducted as junior agents of the Geek Squad Force.

Who: 75 fifth and sixth grade students from Laura Jeffrey Academy and 20 Best Buy Geek Squad Agents.

When: May 18-22, 2009 8:30 am ó 3:45 pm

Where: Laura Jeffrey Academy, 1550 Summit Avenue, Saint Paul, 55105

About Laura Jeffrey Academy

Laura Jeffrey Academy (LJA) is a charter middle school offering a unique year round, girl-focused educational experience for students grades 5-8. Students learn through rigorous study, by asking questions, solving problems, and participating in the community. Located in St. Paul, the school offers an interdisciplinary learning and teaching model that provides students with the experiences and skills that result in academic and personal success ó students who are critical thinkers and leaders.
